

Label all medicine containers, including jugs, basins and syringes using sterile labels from StirlingFildes Healthcare. Our ability to customise and sterilise labels ensures every label set complies with the National Standard for User-applied Labelling of Injectable Medicines, Fluids and Lines.

- Create your own selection of labels to meet all surgical requirements
- Saves time and reduces potential errors by minimising hand writing on labels
- Colour coding reduces risks of administering incorrect medicines or fluids
- Format in specific drug groups, non injectables etc. for efficiency
- Sterilised in individual pouches
- Produced in accordance with the National Labelling Standard
